PREMIUM HEAT & HOT WATER

The Timberline system is intentionally designed to bring the luxuries of home to the rugged outdoors. Whether your adventures take you skiing in the mountains of Colorado or beach-combing in Florida, radiant enveloping comfort and hot showers will welcome you back at your motorhome.

System Operation

Timberline heat and hot water is generated by the Autoterm Binar Compact, a powerful but quiet diesel or gasoline heating unit made for the most adverse conditions. A heated glycol solution is circulated through the interior of the living space through quiet air handlers that provide soft radiant heat. The glycol is also circulated through an instantaneous water heat exchanger which produces hot water for showers and kitchen use.

By using the diesel or gasoline burner coupled with 110V electric element support, Timberline provides efficient comfort whether dry camping or plugged into shore power. When the RV is cold the fans run on high until the interior temperature starts to reach its target. The fans then automatically slow down and remain on low levels, maintaining the comfort levels inside.

The Timberline touchscreen digital panel located inside the RV gives you full control of your interior temperature. The controls are intuitive and easily allow you to adjust how hard or soft you want the heat to distribute and whether you want to utilize your fuel source or electric only.

Intuitive Touch Screen

The Timberline touchscreen digital panel located inside the RV gives you full control of your interior temperature. The controls are intuitive and easily allow you to adjust how hard or soft you want the heat to distribute and whether you want to utilize your fuel source or electric only.

SYSTEM SPECS

Hot Water Performance:
Continuous on-demand

Power:
8000-17000 Btu (Diesel)
5000 Btu (Electric)

Weight:
Less than 30 lbs

Power Consumption:
12V: 5 amps,
120V: 12.5 amps

System Layout— Fully Customizable

Elwell corporation is a family owned and operated firm that specializes in providing technical products to the Recreational Vehicle and Marine markets. Our family has been active in the industry over 25 years and we have enjoyed our success in many different segments of the market.

Elwell Corp offers services such as:

Manufacturers Representatives
Warehouse & Distribution
Service and Customer Support
